

67. Same solution as #18

```
def load_triangle(file)
  File.readlines(file)
    .each {|str| str.gsub!(/[ ]/, ',')}
    .each {|str| str.gsub!(/\n/, '')}
    .map do |str|
      split = str.split(' ')
      split.map! {|num| num.to_i}
      split.each_with_object([]) do |num, arr|
        arr << num
      end
    end
  end
end
```
