

Find the sum of all the multiples of 3 or 5 below 1000.

```
num = 3
multiples = []
while num < 1000
    multiples << num
    num += 3
end
```

```
num = 5
while num < 1000
    multiples << num
    num += 5
end
multiples.uniq.sum
```
